## BLINDS

MIRAGE BLINDS – a new type of product that is taking over the window blinds market.

Mirage blinds is a functional set of elegantly hanging vanes that can serve as day & night curtains, but with a possibility of passing in between the vanes.

Mirage blinds operate in the same way as your existing vertical blinds, but unlike a traditional vertical blind which has the chains along the bottom, the unique design and soft nature of the Whisper collection fabric allows you to simply separate the fabric and look or walk through.

#### ADVANTAGES OF MIRAGE BLINDS:

Easily controlled - the vanes can be moved to each side of the window, using a wand or a string.

Privacy - the vanes can be rotated to give full or partial privacy from outsiders;

Functionality - a possibility to walk through the blind - in between the vanes - without having to open them completely. Perfect for terrace entrances and balconies.

Easy to look after - fabric vanes are dirt-resistant; In case of staining, separate vanes can be dismantled and handwashed.

Safe - "Mirage" contains "Child safety" accessories that ensure the safety of children.

Practical - there's ability to choose curtains with different length of vanes.

Assortment - Curtain vanes come in 5 stylish colors that will fit in with any office environment or a cozy home:

- White (Whisper 07)
- Cream (Whisper 08)
- Light grey (Whisper 09)
- Black (Whisper 10)
- Mid grey - anthracite (Whisper 11)
